

LogiLink®

ΣDoor/Window

Art. No.: SH0003

ΣDoor/Window is a compact wireless sensor to detect the state of doors, windows, cabinets and safes. From now on you can always know when someone opens your doors and windows at home. The sensor is simply attached to the door or window frame and connected to the base station. You'll be able to see any activity on your smartphone or tablet, anytime and anywhere.

Features:

- » Display open/close state of doors, windows, cabinets, and safes
- » History record/event of door or window status
- » To protect your property and loved ones from intrusions.
- » Exclusive ΣLink feature enable various conditions to activate your smart life, i.e. leave home then turn on light
- » Compatible with Medion® Smart Home Systems

Alerts with all the door/window activities
